### **PRESS RELEASE**

**August 19, 2008**

#### **“Summer Roundup”**

The Warren County Drug Task Force, with the cooperation of several local and federal law enforcement agencies, is in the process of serving both state and federal drug indictments on a total of twenty-six (26) individuals in Warren, Hamilton, Butler, Montgomery, and Clinton counties.

The majority of indictments have been obtained from the Warren County Grand Jury, but additional indictments were procured from the grand juries in Butler and Hamilton counties, and one ongoing federal case. The drugs involved are marijuana, cocaine, ecstasy, LSD, heroin, methamphetamine, psilocybin mushrooms, and prescription drugs (Xanax, Ketamine, Methadone, and OxyContin).

All of the indictments involve the sale or conspiracy to sell illegal controlled substances, and range from mid-level to high-level drug traffickers in our area. Although a host of different drugs are involved, these arrests reflect a significant problem in the trafficking of prescription drugs.

Commander John Burke
